

## **INTEGRATED MANAGEMENT SYSTEM POLICY STATEMENT OF JW STEEL CONSTRUCTION SP. Z O.O., SP. K.**

*The main objective of the IMS Policy at JW Steel Construction Sp. z o.o., Sp. K. is to ensure that the services and products we provide are performed and manufactured in a safe way, meet our clients' requirements, needs and expectations while giving them the full satisfaction.*

The main objective of our Company is the provision of comprehensive services of steel structure execution and curvilinear cutting of carbon and stainless steels. We are committed to all our activities, meeting quality standards, while maintaining occupational health and safety, which guarantee the achievement of the intended goal and customer satisfaction.

We offer our products in a reliable and timely manner.

We achieve this objective by:

- timeliness of services;
- full client satisfaction;
- each employee's individual responsibility for the quality of the work provided;
- continuous improvement of the Integrated Management System;
- ensuring resources improving the safety of working conditions and continuous improvement of the state of occupational health and safety;
- taking all possible measures to prevent accidents at work, near misses and occupational diseases;
- raising the employee awareness related to meeting the Client and OHS requirements;
- improving the qualifications of all employees of the Company.

The strategic objectives are implemented by:

- ongoing identification and supervision of the legal requirements referring to the performed tasks and OHS;
- continuous improvement of the level of services provided based on our Clients' opinions and assessments;
- precise identification of our clients' needs;
- implementation and continuous improvement of the Integrated Management System according to the EN ISO 9001:2015, ISO 45001:2018 standards and the PN-EN 1090-2:2018, PN-EN ISO 3834-2:2021 standards;
- continuous expansion of the modern machine park;
- continuous improvement of our employees' qualifications, OHS awareness and quality sensitivity;
- providing services with the quality expected by the Client and ensuring safe working conditions;
- use of suppliers who guarantee goods and services of the highest quality and compliant with the occupational health and safety requirements;
- actions aiming at continuous improvement of occupational health and safety;
- participation and consultation with employees in the field of OHS
- continuous commitment of the Company managerial staff.

By implementing and maintaining the Integrated Management System according to the EN ISO 9001:2015, ISO 45001:2018 standards and the PN-EN 1090-2:2018, PN-EN ISO 3834-2:2021 standards, we confirm the credibility of our activities resulting in our Client's satisfaction.
